PROFESSIONAL SUMMARY

Java backend developer with 7+ years delivering Spring Boot microservices and Kafka integrations across hospitality, telecom and financial services. Own design, deployment and production support, with experience in Java 21, API security and React full-stack development. Use AI tools to improve development productivity. Seeking a senior Java backend or full-stack developer position.

TECHNICAL SKILLS

Backend: Java 8-21, Spring Boot, Spring MVC, JPA/Hibernate, REST APIs, GraphQL
Architecture & messaging: Microservices, distributed systems, Kafka, Confluent Kafka, Avro, Saga pattern
Data & frontend: Oracle, PL/SQL, MySQL, Cassandra, MongoDB, Redis, React.js
Cloud & delivery: AWS, Docker, Kubernetes, Harness, Jenkins, Git, Maven, CI/CD
Security & resilience: Spring Security, OAuth 2.0, JWT, Keycloak, Resilience4j, Retry/Backoff, Istio
Testing & operations: JUnit, Mockito, Dynatrace, Splunk, Kibana, Agile/Scrum
Concurrency: CompletableFuture, Java Streams, lambdas; working knowledge of Reactor (Mono/Flux)
AI tools & technologies: Codex, GitHub Copilot, GenAI, Boot UI, Spring AI

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions Dec 2022 - Present
Java Backend Developer (Associate - Projects) | Marriott Hotel Integration

- Develop and maintain 15+ Java and Spring Boot microservices for hotel reservations, PMS integrations, digital keys and digital check-in.
- Build REST APIs and Kafka event flows with Confluent Kafka and Avro; use CompletableFuture for asynchronous processing.
- Secure APIs with OAuth 2.0, JWT and Keycloak; implement resilience using Resilience4j, circuit breakers, retries and Istio.
- Own requirements, design, implementation, deployment and production support; coordinate delivery with QA, product and platform teams.
- Troubleshoot production with Dynatrace and Splunk; support CI/CD with Harness, Docker, Kubernetes and AWS.

Publicis Sapient Oct 2021 - Dec 2022
Associate Technology L2 | Verizon One Digital Platform

- Designed REST APIs and third-party integrations; helped decompose monolithic applications into microservices to improve scalability and maintainability.
- Improved Redis- and Cassandra-backed service performance by 30%; resolved complex defects and partnered with QA and business teams on releases.

Tata Consultancy Services Dec 2018 - Oct 2021
Systems Engineer | TCS BaNCS - MLC

- Developed Java and Spring applications using JSF and Oracle PL/SQL; supported testing, production operations and issue resolution for insurance and financial services.

FULL STACK PROJECT

Gayatri Dental Clinic Management & Appointment Portal | gayatridental.com

- Built a responsive React frontend and Spring Boot backend for appointment management and payments; integrated Razorpay webhooks and tested callbacks with ngrok.
- Developed REST APIs using JPA/Hibernate and MySQL; deployed with Docker, Nginx, SSL and production monitoring.

EDUCATION

B.Tech in Computer Science and Engineering 2018
National Institute of Science and Technology, Odisha | CGPA: 7.5/10
